Errata

in Part I of this review (*Gold Bull.*, 1981, **14**, (3), 102-118)

Section III, p. 106: the M-Au-M example should read $[\text{Au}\{\text{Co}(\text{CO})_2\}_2]^-$

Section IV, p. 109: the *cis*-ethylenic derivative should read $[(\text{Ph}_3\text{PAu})\text{C}(\text{CF}_3)_2]$

Figure 19, a, p. 111: this compound is in fact a 10-membered, not an 8-membered ring

Table III, p. 112: the *p*-tolyl trimer should read $[(\text{ArN}=\text{COEt})_3\text{Au}]$
